Hi,  
I'm a student of the  
National University of  
Ireland, Galway.

I'm in the middle of an  
assignment regarding the  
US EPA report on  
Pavillion, WY, and I was  
wondering if you could  
point me in the right  
direction.

I have to review the  
report and I was doing a  
bit of research there and  
I found Robert J.  
Sterrett's review of the  
report. I was wondering  
if this is considered a  
formal review by outside  
experts? Because I read  
an article (below) that  
said it hasn't yet been  
formally reviewed.

Thanks very much if you  
get a chance to read this  
and get back to me.
